DESIGN PLANS AND CURATED FINDS FOR EVERY BUDGET

INTERIOR DESIGNER

ABIGAIL *Scott*

Hi, I'm Abby a stay at home mom in a busy season of life and an aspiring interior designer located in the small town of Burlington, IN. I started this design business because I truly believe your life can be more, and that you can create something beautiful with what you have one step at a time. I've always had a passion for interior design, but it really grew when I created a sensory safe space for my disabled toddler. That's when I fell in love with how thoughtful design can completely change the way a home feels even for a little one. Around the same time, I was fortunate to get a house of my own, and I've been learning firsthand that making a space your own doesn't have to happen overnight. It can be slow, intentional, and still incredible little by little, room by room. Not long after, I was blessed with another baby and got to design the pink nursery of my dreams, which made me appreciate even more how meaningful a space can be. That's the same energy and approach I bring to every client project—making design feel personal and doable, while still creating a space that feels elevated and put-together. Whether you're starting with a blank room or just need help pulling everything together, I'm here to make the process feel exciting instead of stressful. If you're ready to transform your space, I'd love to work with you.
