ABOUT ME

Hi, I'm Abby—a stay-at-home mom in a busy season of life and an aspiring interior designer located in the small town of Burlington, IN. I started this design business because I truly believe your life can be more, and that you can create something beautiful with what you have—one step at a time.

I've always had a passion for interior design, but it really grew when I created a sensory-safe space for my disabled toddler. That's when I fell in love with how thoughtful design can completely change the way a home feels—even for a little one. Around the same time, I was fortunate to get a house of my own, and I've been learning firsthand that making a space your own doesn't have to happen overnight. It can be slow, intentional, and still incredible—little by little, room by room. Not long after, I was blessed with another baby and got to design the pink nursery of my dreams, which made me appreciate even more how meaningful a space can be.

That's the same energy and approach I bring to every client project—making design feel personal and doable, while still creating a space that feels elevated and put-together. Whether you're starting with a blank room or just need help pulling everything together, I'm here to make the process feel exciting instead of stressful. If you're ready to transform your space, I'd love to work with you.

OVERVIEW

I'm an aspiring interior designer who genuinely enjoys helping turn a house into a home. I work remotely to create room concepts with 3D mockups and a curated shopping list of exact items, so you can clearly see the vision and shop it with confidence. Whether your style is neutral and minimalistic or bold and colorful, I tailor each design to your taste, budget, and the way you live—so your space feels functional and truly you.

WHAT I DO / HOW IT WORKS

For remote projects, I start with a quick style + needs questionnaire so I can understand what you like (and what you don't). Then I put together a design direction, a 3D mockup of your space, and a curated shopping list of specific items that match your budget. I mainly use shopping sites like Amazon and Etsy to get your space looking amazing. You'll get a clear plan you can follow at your own pace, with room to revise and fine-tune until it feels right.

SERVICES

- Space planning + simple floor plan/layout ideas
- Theme/mood board + color scheme board
- 3D mockup/model of your room design
- Curated online shopping list (furniture, lighting, rugs, decor, and more)
- Styling tips + placement guidance for the finished look
- Local painting and furniture refresh

WHAT I NEED FROM YOU

A few photos of the room in daylight, basic measurements, any inspiration (Pinterest), and your budget + timeline.
